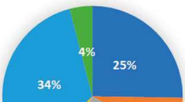
Institutional Development

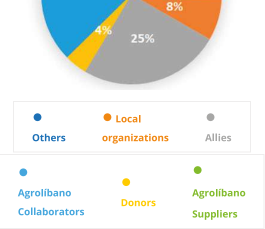
26 people, including Agrolíbano Foundation collaborators and their families, participated in the first retreat "Change your mind, create a new reality", based on neuroscience, neuroplasticity, epigenetics, quantum physics and meditation, to generate changes in the state of being, allowing co-creation of a new personal reality with new healthy habits at a physical, mental and emotional level.

In a virtual session, Fundación Agrolíbano has presented its social investment accountability,

5 companies from the southern region: Azucarera Choluteca, SolHn-Fyffes, La Grecia, Fundesur and Agrolíbano, are holding a series of sessions to learn about expectations, strengths and common areas of coverage, with the aim of forging a successful alliance that implements projects to benefit the population of the southern region of Honduras.



sharing the results of its 2022 management with allies, donors, local actors, public entities, private companies, target populations and special guests.



Agrolíbano, through its Sustainability Director, participates in the Global Goals Summit on Combating Poverty through Business, within the framework of the 78th United Nations General Assembly, sharing the experience in the fight against poverty in the company and neighboring communities using the IPM.
